

Add Content to Your Personal Profile Page

On your own Personal Profile page you can add unlimited amounts of:

- Videos
- Images
- Audio Files
- Text

Begin by logging into the site. There are two ways to get to the login page:

1. Click on the Login Button on the top right of the site
2. Or click on the button that says "User" located on the right of the homepage just under the site's navigation bar

Once you are signed into the Purple Haze Family website go to your Personal Profile page. There you will see an Edit button. Click this button to bring you to the Edit page. Here you can add or delete content to your page.

You can add any type of content that you want on your own Personal Profile page on the site, including images, text, YouTube videos and SoundCloud audio files and more.

To add images:

- In the Picture section click Upload picture. This is your virtual face or picture, the picture of you that will display around the site. Images can be: png, gif, jpg or jpeg
- Under the Profile Images section click Add a new file: You can add: png, gif, jpg or jpeg These images will show in the Summary on your Personal Profile page.
- Under the Add A Single Image section you can enter an image to display and link to an external website if you would like. Enter a well formed URL. Example: <http://www.google.com>

To add video:

- Under Profile videos, Select media, you can add: avi, mp4, mpeg, mpg or wmv.
- Or in Select media you can click on the Web tab to input a url or embed code from one of the listed providers to upload video or audio.
- You can also click on the Library tab and add something that is already in the library on the site.

To add text:

- In the Profile section you can add text.

You can also select a purple emoticon image, if you like. This way people can see how you are feeling for the day. It is at the bottom of the edit page.

It is very important to remember to **click the save button** after you have added or deleted anything on your personal page. This includes the purple emoticon image.

If you do NOT **click the save button** at the bottom of your personal page the videos, music, images (pictures), including you purple emoticon image will NOT be saved.

Purple Haze Family.com where you don't have to be blood or an artist to be family.

" Welcome to the Family. "
